BRIDGING OPERATIONS WITH TECHNOLOGY. . .

Welcome to Icetek

Established in June 2009, with technical experience that spans over 5 years, **ICETECH** is one of leading communication specialists with the unique vision on the needs of other business entities in providing products and services for their operations, communications and security.

ICETECH, is established with a goal to provide cost-effective products and solutions to clients with highly skilled and experienced professionals. Our staff members are recruited and selected for their skills, work experience and commitment to quality; our professionals are industry specialists in the fields we serve.

Aside from government departments like public safety, military and services, we also deal with private companies, across all industries from Hospitality, Utilities, Healthcare, Transport, Construction & Development, Mining, Manufacturing, Retail among others. This experience with different type of customers, means we are familiar with the specific requirements needed by our customers and can quickly get up to speed on what you want from your communications system.

Two-way radio products and systems are not our only area of expertise. We are capable to engage in the supply and delivery of Video Surveillance Systems (Analog, Digital, IP-Based Cameras), Information Technology Systems (Backhaul, Last Mile Systems, LAN, WLAN, & MAN Systems), Structured Cabling Systems, Integrated Command & Control Systems, Radio Dispatch Systems, Automatic Vehicle Location System (AVL-GPS), Audio & Video Systems, Building Auxiliaries (Electrical Fixtures & Layouts, Fire Detection & Alarm Systems (FDAS) & Telephony) and Personal Protective Equipment (PPE).

Our product brands include Wideband, Zetron, Kirisun, Tait, RFI, Kedacom, Pishion, Denavo, Bavono, HunterPro and other leading brands for our installation requirement. For these products we offer sales and thorough technical support. But, we can service and support most radio brands.

Automation

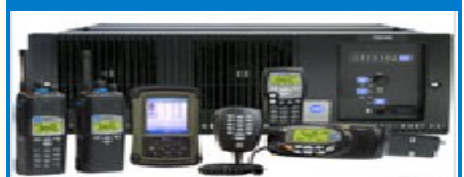

ICETECH provides turn-key solutions utilizing a wide range of communications, computer and automation technologies.

Integration

ICETECH specializes in some state-of-the-art computer/machine, machine/machine, and systems/systems integration.

Solutions

ICETECH provides turn-key solutions utilizing a wide range of radio, communication, and security equipment protocols & technologies.

About Us

Mission & Vision

ICETECH focused its core on one concept:

Our dedication to provide dependable and compelling services among our clients, by constantly identifying and capitalizing on solutions to the growing needs for high quality and cost efficient products, systems and networks.

To be one of the frontliner in providing products, solutions and services in mobile wireless technology.

ICETECH founded by a group of highly educated and well experienced professionals with the dream of making our own mark in this competitive market. Since its inception, ICETECH is providing products, solutions and services to various companies, agencies and organizations all over the country.

We provide total communication and information solutions including:

- Design
- Development
- Project Management
- Implementation
- Training
- Consultancy

Philosophy

At Ictech Trading, we understand there is an unfulfilled need in the market for a highly skilled organisation with genuine vendor independence to design, implement and support effective communications products and solutions.

With the emergence of a new wave of digital products and standards, the choices can often be confusing. The team at Ictech are responsible for the supply and installation of a plethora of analogue systems and many of the current digital radio systems throughout the country, all tailor made to suit our customer specific requirements.
